

The Foremost Event of Fall

Our Fashion Show

Always recognized as the leading store of El Paso when it came to correct wearing apparel for women, we are naturally jealous of our reputation. So, this fall, we have made a supreme effort and our Fashion Show will easily be an event of the greatest interest to every El Paso woman who appreciates correct ideas in dress.

Fall Fashion Show Occurs Later

It is impossible at present to give a definite date on which to hold the Fashion Show. While we now have practically a complete stock there are yet to arrive several special items that are to be features of the Show. Some of these must come from abroad, others from New York. Until we are definitely advised regarding them it will be impossible to tell you just when this long-looked-forward-to event will occur. We ask that you watch our advertisements.

Scarfs

Of course, the scarf idea came from Paris. It is one of the novelties of the season and nothing adds a prettier finishing touch to a costume than one of these beautiful new scarfs.

Jewelry

Jewelry of the novelty sort is more in favor this season than ever before. Indeed, it is such an important item that this fall it forms a separate department here, where you will find every new idea in mesh bags, purses, Chateaufort, barrettes, back combs, hair ornaments and many other similar articles.

The Imported Gowns

As stated above, we have made a supreme effort in assembling styles for the Fashion Show. Towards that end, Mr. M. Coblenz visited Europe and selected several gowns from the Brussels Exposition and at Paris. These gowns have already arrived and will take a prominent part in the coming Fashion Show. Also, a display of furs, including handsome fur coats, is another item of importance for the Fashion Show.

We Now Have Sufficient Stocks for Present Needs

Although our Fashion show comes at a later date, you can now buy here with supreme satisfaction any needed garment. Not only is the Garment Section overflowing with splendid stocks but dress accessories are offered in wide diversity and every novelty of the season is shown. Previous to the Fashion Show special displays and attractive prices will be offered on---

Opening Of El Paso School For Girls

First Institution of Its Kind in the Southwest, Completely Appointed in Every Respect.

The opening of the El Paso School for Girls--the first school of its kind in the southwest--occurred Thursday, without great ceremony, but with a determination to make success of the new El Paso educational institution. The school is located on Terrace street, Nos. 1111 to 1115, the three buildings topping Sunset Heights and facing one of the most beautiful panoramic views of El Paso and the bordering mountains.

While the school's program is arranged along original lines to fit the need of El Paso and nearby southwestern cities, the institution in general is patterned after the most modern and approved educational standards. It is the only attempt of its kind ever made in this locality.

An epitome of the school work is a combination of studies to fit the individual case, and outdoor life carried even to the classroom. The intent is to keep El Paso young women at home and to attract pupils from all over the southwest, by affording educational facilities equal to the best available anywhere.

The present quarters of the El Paso School for Girls are in three new and attractive buildings, with an abundance of porch room, in front of the school, while screened porches will be used for outdoor class work. There are four indoor classrooms and five recitation porches. The first house contains the living room and dining room, furnished in homelike style. Bedrooms are located in the second story of each of the houses, each room furnished for two resident pupils. One of the houses will be used for the music and art studio.

The athletic feature will be emphasized along certain novel lines. There will be no competition with other schools, but all variety of games to lend strength without eliminating grace will be played. Athletic dancing will be taught by an experienced teacher, and is to become a special feature. Also domestic science will be taught, an hour of plain sewing being required each week. Cooking classes will be

formed among those domestically inclined, and also a course in general domestic economics. Only girls over 11 years of age will be accepted for the present. In general the school's object will be dual, the rendering of any special course desired for practical education and general culture, or the preparation for any college in the United States. Special stress in the general course will be laid on English, literature, and history. Yalco culture and a course in dramatic expression are provided for.

In starting the new institution, Miss Ora W. L. Slater, principal, and Miss Olga E. Tafel, associate principal, have chosen first to engage an adequate and efficient faculty. There are seven resident teachers and four instructors residing in the city, all of whom are thoroughly capable, well trained and experienced.

The board of directors of the new school is composed of some of El Paso's foremost business and professional men, including: J. J. Ormsbee, president of the board, who is superintendent of the El Paso smelting works; Horace B. Stevens, vice president of the board, a well known real estate and insurance man; J. F. Williams, treasurer of the school, who is vice president of the City National bank; Rev. Henry Easter, the rector of St. Clement's Episcopal church; Louis E. Behr, for a number of years El Paso's city assessor and collector; J. G. McNary, vice president of the First National bank; Richard F. Burges, a lawyer of prominence; Chas. M. Newman, of the Newman Investment company; A. Courchesne, a leading manufacturer and financier; Dr. H. E. Stevenson, physician and surgeon, who is president of the board of directors of Clouderott and of the baby sanatorium; H. D. Slater, secretary of the board, editor and president of The El Paso Herald.

The women's board is composed of Mrs. J. A. Rawlings, Mrs. U. S. Stewart, Mrs. J. F. Williams, Mrs. W. R. Brown, Mrs. W. A. Hawkins, Mrs. E. M. Bray and Mrs. Z. T. White.

Roswell, N. M., Sept. 17.--A report that the public schools of Roswell will be run only six months for lack of funds is said to have been started by the saloon interests back of the movement to form of government law. There is really no question but that the school will run nine months as planned, because the present balance in the treasury is nearly \$18,000 and a considerable sum will be transferred to the high school building fund in addition to meeting the expenses of the schools for the school year, which will amount to about \$24,000.

MEXICAN CONGRESS FORMALLY OPENED

Diaz Refers to Valladolid Uprising and San Antonio Fair.

Mexico City, Mex., Sept. 17.--The September session of the Mexican national congress was opened at 6 o'clock last night by president Diaz. The message of the chief executive did not take up any questions of international importance.

In his message the president referred to the recent disturbances in Yucatan in the following words:

"At the beginning of June last there was a disturbance of the peace at Valladolid, Yucatan, in the shape of an armed rebellion against the constituted authorities; but in all haste a sufficient force was dispatched to quell the uprising and with the cooperation of the state militia, that force quickly attained the desired object and with such thoroughness that neither wandering bands nor isolated centers of disorder were left.

"The ringleaders of the movement, as well as other persons implicated, were court martialled and, being found guilty, three of them were sentenced to death and executed, according to law."

The chief executive said that the Mexican government had accepted the invitation extended to it to take part in the San Antonio, Texas, fair, and that it was now preparing an exhibition for that event.

President Diaz referred to the increase in the revenue yield, saying that customs house revenue yielded in 1902-10,800,000 pesos more than in the preceding fiscal year.
